DIGITAL PLATFORM PROPOSAL

Kitui Institute of Professionals

One integrated college management system — public website, online admissions, student and lecturer portals, an administrative console, and an AI study assistant.

➤ LIVE DEMO INSIDE

OCTOBER 2026

PREPARED FOR KITUI INSTITUTE OF PROFESSIONALS

AGENDA

What we will cover

01 About KIP College

02 The challenge and the opportunity

03 The solution at a glance

04 Live demo — see it running today

05 Platform tour

06 Technology and security

07 Investment, recurring costs and timeline

08 Why this platform and next steps

⚡ The platform is already built and deployed — everything in this deck can be tested live today.

ABOUT THE INSTITUTION

Kitui Institute of Professionals

- ▿Tertiary college serving Kitui County and eastern Kenya
- ▣21+ programmes across 3 categories: Technical (ICT, engineering, hairdressing & beauty), Business, and KASNEB professional (CPA, CAMS/ATD)
- ✓Examined by KASNEB, KNEC, NITA and TVET-CDACC
- 🏛️Three campuses, one college — a central system keeps every location on the same page

Main Campus
100 m from Wikililye, Mulango Road, Kitui

Town Campus
Muli Mall Building, Kitui CBD

Mwingi Campus
Sunrise Building, Mwingi Town

THE CHALLENGE

Manual processes slow the college down

Paper applications

Forms travel to campus; no tracking reference, no status visibility

Manual fee records

Balances reconciled by hand across three campuses

Results on paper

Marks copied and re-copied between offices and campuses

Office-hours only

Families cannot check progress without travelling to a campus

↗ **The opportunity:** students and parents live on their phones. A college that answers at midnight and accepts applications on Sunday wins the next intake.

THE SOLUTION

One platform, six modules, one database

Public website
Programmes, campuses, news, contact

Online admissions
Guided wizard, unique application reference numbers

Student portal
Fees, results, timetable, materials

Lecturer workspace
Rosters, marks entry with draft-to-publish

Admin console
Students, applications, courses, fees, results, news, timetable

AI study assistant
On-demand study help inside the portal

Role-based access: every user sees exactly their own workspace — nothing more.

SEE IT LIVE

The platform is running today

⚡ Live on Vercel with a persistent PostgreSQL (Prisma Postgres) database — works on any phone, tablet or computer.

Public website and online admissions

Public website

- ✓Programme catalogue across all 3 categories
- ✓Campus locations and contact details
- ✓News and announcements from the admin CMS
- ✓Clear apply calls-to-action on every page

Online admissions

- ✓Guided application wizard with validation on every step
- ✓Every submission gets a unique application reference number
- ✓Duplicate submissions prevented automatically
- ✓Accept in the admin console — applicant becomes a student record

☞ Try it: submit a test application and receive your own reference number before logging in.

PLATFORM TOUR · 2 / 2

Portals for every role

Student portal

- Personal dashboard
- Fee statement and balance
- Published results
- Timetable and learning materials
- AI study assistant

Lecturer workspace

- Class rosters, always current
- Marks entry with Save draft
- Publish when checked
- Drafts stay invisible to students
- Publish drafts in one action

Admin console

- Students and applications
- Courses, fees and payments
- Results moderation
- News and announcements CMS
- Timetable management

✓ Students only ever see published marks.

FOUNDATION

Technology and security

Technology stack

Framework	Next.js 16
Language	TypeScript, strict mode
Interface	Tailwind CSS + shadcn/ui
Database	PostgreSQL via Prisma Postgres (persistent)
Hosting	Vercel, continuous deployment

Security by design

- Role-based access control enforced server-side
- Rate limiting on login, passwords and applications
- Full audit trail of security events
- Secure, hardened session cookies
- Strict input validation and security headers

No server room, no on-site hardware, no dedicated IT staff required.

INVESTMENT

One-off cost to own the platform

KES 64,000

Total one-off investment — no licence fees and no per-student charges.

Full source code and data ownership

Design and branding	15,000
Platform development	22,000
Content, testing and deployment	18,000
Training and handover	9,000
Total	**KES 64,000**

Fee figures pending verification by the college owner.

AFTER GO-LIVE

Recurring costs and payment milestones

Recurring (per year)

Hosting KES 10,000 / year
Vercel, managed PostgreSQL, domain, SSL

Maintenance & support KES 36,000 / year
KES 3,000 per month — updates, fixes, support channel

Total recurring: KES 46,000 per year

Payment milestones

Sign-off	Proposal accepted, Phase 1 begins	KES 32,000 50%
Staging delivery	Branded, content-loaded review site	KES 16,000 25%
Go-live	Fully operational, staff trained	KES 16,000 25%

DELIVERY

Six phases, six to eight weeks

✦ Week 1

Discovery & sign-off

Confirm programmes, fees, branding; first milestone

✦ Weeks 1–2

Branding & design

KIP identity across site and portals

✦ Weeks 2–4

Configuration & data

Real programmes, staff accounts, fee structures

✦ Weeks 5–6

Content, testing, staging

End-to-end tests, review site; second milestone

✦ Week 7

Training & handover

Staff training, documentation, credentials

✦ Week 8

Go-live & support

Production domain, monitoring; final milestone

⚡ The platform already exists — delivery is branding, content, verification and training, not risky software construction.

DECISION

Why this platform, and what happens next

Why

- ◉Already live — evaluate the real thing before paying
- $One-off KES 64,000 — no licences, no per-student fees
- ✦Modern maintainable stack any developer can take over
- ⛨Secure by design — RBAC, rate limits, audit trail

Next steps

1. 1Review the live demo with senior staff
2. 2Verify contacts, fee figures and programme list
3. 3Sign off and pay the first milestone (KES 32,000)
4. 4Supply branding assets and nominate staff for training
5. 5Approve staging and schedule go-live

KITUI INSTITUTE OF PROFESSIONALS

Thank you.

Integrated College Management System — public website, admissions, portals, admin console and AI study assistant.
